

Upon review of the Levin Schedules filed for 2008, the Committee noticed items that had been incorrectly reported. The contributions into the Non Federal account that had originally been reported as Levin Funds should have only been marked internally as Levin Eligible. The only time these funds should have been reported as Levin Funds on Line 1a of Schedule L-A was at the point these funds were transferred from the Non Federal account into the Non Federal Levin account during the Post General Reporting Period. The Committee has gone back and removed these contributions from the original Levin Schedules for each report in 2008 and they now appear appropriately on the 2008 Post General Report. All effected reports are now being amended.
